

Aerial Distribution Box TEN-FAB3

Features and Benefits

This compact aerial distribution box can support up to 32 customer aerial connections. With its unique fiber management, the FAB3 provides support for both LC and SC customer connections along with incoming fiber splicing and provision of different sizes of splitters. It is easy to install and operate and uses a considerably smaller amount of space on aerial pole which is huge advantage when mounting in congested locations.

- **Compact size**
- **Up to 32 (LC) Customer Connections (16 SC)**
- **Splice Tray with 18 Splice Holders (9 Double Depth Positions)**
- **Integrated Fiber Management on Splice Tray**
- **Cable Management Under Splice Tray to Manage Loop through Cables**
- **6 Splitter Positions in Base Under Splice Tray (4 x 1:2/4/8 + 2 x 1:16)**
- **2 Rows of 8 Adapter Positions (Duplex LC or Simplex SC)**
- **32 Customer Drop Entry Glands**
- **Secure Hinges and Catch Mechanisms**
- **Lid Securely Locked in Place with Security Key**
